Join NIEC Now!

You should know that NIEC is one of the most important movements in the UK in the 21st Century.

British schools have continued to fail in educating Black children for the last 40-50 years.

This Coalition can no longer allow this to continue as the impact has had a devastating effect in our community.

The NIEC works on a number of levels,

- Firstly, we are uniting our community to become One influential force to express our concerns and demand change.
- We are working towards supporting and networking the number of community initiatives and agencies already in existence.
- We are working on a strategic level with government officials for our voices and opinions to be heard and addressed.

However, in order for us to make a difference, we must overcome one of the most successful legacies of 'The Slave Trade' that still exists today, and that is our lack of unity, we must be united.

Our Unity will make a difference showing that we are organised and serious.
